Faster catering quotes with AI

YOUR QUESTION

“We get 15–25 catering and custom cake inquiries a week. I spend about 10 hours going back and forth asking for dates, servings and flavors before I can even quote. Can AI handle the back-and-forth and get quotes out faster?”

THE ANSWER

Yes, and you approve every reply

Send customers to a short order form so every detail arrives up front. Then Claude, connected to your Gmail, drafts a complete quote from your price sheet for you to check and send. Nothing goes out without your OK.

~7 hours saved every week	~\$20 a month in tools	1 afternoon to set up

TRY IT TODAY, FREE

Answer your next inquiry in seconds

Go to **claude.ai** and paste this, adding a real customer message. Claude writes the reply for you.

Here's a customer inquiry for my bakery: **[paste it here]**. Write a short, friendly reply that asks only for the details I still need to quote it: date, number of guests, flavor, allergies, and pickup or delivery.

Get your full 10-page plan

Step-by-step setup, a 30-day plan, ready-to-paste templates, costs and return, and safeguards for allergies and rush orders.
